The image shows a collection of DIEWE POWERLINE diamond tools, including various sizes of diamond discs and segments, displayed in their packaging. The products are arranged in a grid-like fashion, with labels for different applications: TILE, CERAMIC, CONSTRUCTION, and STONE. The packaging features the DIEWE logo and the word POWERLINE. The background of the display is dark, and the products are highlighted with red and blue accents. The overall layout is clean and professional, emphasizing the range of products available.
